NAME: Workshop 12, Week 27 Serving Life: Procreation

The Catechetical Institute

1. What is the argument presented in Humane Vitae?

2. Why is the use of contraception wrong? Is contraception always wrong?

3. With a serious reason for avoiding conception, why is the method of natural family planning (abstaining from sexual intercourse when the woman is most fertile) morally acceptable, unlike contraception?

4. Think of one practical way you can help students understand the dignity and beauty of marriage, and help them see it, not only as desirable, but also attainable. Maybe invite a class to attend a wedding mass with you or have a guest speaker talk to your students on marriage?
