NAME:

Workshop 11, Week 21

Enter the Adventure

Bishop Robert Barron

1. List the five purposes given for tribal initiations.

2. "I think our culture right now is stuck in a kind of permanent adolescence." Give an example of what you think he means.

3. How are the five initiation ideas also seen in the Church's teachings on what the purpose of life is?

4. In an age of technology, which is telling our students they can and should live for their own pleasure, and that there is no God and they are the most important thing to exist, what can our school do to combat this stunting of students' maturity?
