NAME:

Workshop 10, Week 20 Male Staff Fatherhood

The Knights of Colombus

1. "To be a spiritual leader of a family means to be convinced that the fatherhood of god is imaged in the father of the family. It brings the fatherhood of God close to the children." Explain this statement in your own words.

3. "We, as fathers, literally need to be guards in the doors of our children's souls, because what comes in through their eyes and ears will change them." What effects have you seen internet and phone usage having on young people?

4. How can the men at our school be better models of God the Father for our boys (sons and students) as seen through our everyday actions? Give at least one practical example. Should the male teachers lead a boys group or a male mentorship program to make up for lack of fathers in student's lives?
