NAME:

Workshop 12 Output

# The Community of the Family

Before taking this workshop how did you view the mission of the Christian family in today's society. What did you see as the purpose of marriage? How did children fit in? Now having completed this workshop, have your views changed?

Considering the above questions, write a 200 word reflection on if/how this workshop has affected the way you view your personal mission in your family and in your Catholic school.
